

## Hunting and Wilderness Skills School

Hunting in remote mountainous terrain is completely different than going on a summer backpacking trip. You are off trail and navigating country that is very remote. Why do guided hunters harvest elk 5 times more often than non-guided hunters in the back country. How do the 20% of the hunters that harvest 80% of the elk get their elk every year. Local knowledge is important but there is much more.

Reading books and watching hunting shows is no substitute for being in elk country.

If you are not part of the 20% Storm Creek Outfitters has designed a very hands on program that will allow you to gain the knowledge and experience to be safe and effective in the back country and hunt like a pro your next time out.

This school was designed especially to make non-guided hunters more successful, increase their competency and provide them confidence and security in the back country.

# Storm Creek

OUTFITTERS, LLC

We are responsible for the food, lodging, all the equipment and have over 40 years of backcountry experience and stories. This class is both fun and educational. Great for students to seniors who want to learn to enjoy the back country.
